International WORKSHOP

16th December 2020

“Covid 19 between security and Internationalisation”

The coronavirus crisis not only has led to the “Great Economic Pandemic”. It marked the beginning of a new era, of a new Mondial order, a new globalization. It is a great contemporary historical event; it is really “international” and a big world security problem. The international solidarity with health personnel around the world should serve as an incentive for the world to know how to react in an extraordinary way and reverse events.

La crisi del coronavirus non ha portato solo alla "Grande pandemia economica". Ha segnato l'inizio di una nuova era, di un nuovo ordine Mondiale, di una nuova globalizzazione.

È un grande evento storico contemporaneo; è davvero "internazionale" e un grosso problema di sicurezza mondiale. La solidarietà internazionale con il personale sanitario di tutto il mondo dovrebbe servire da incentivo affinché il mondo sappia come reagire in modo straordinario e invertire le situazioni.
